H, I'M MCHELLE

I help e-commerce and product-based businesses sell their inventory using Facebook and Instagram.

I offer both management and strategy. Usually in this industry, service providers offer one or the other. But, I believe you can't have one without the other when it comes to success! That is why I provide both for my clients.

Having an Instagram guru like me on your side saves you time, stress, and overwhelm in dealing with making the app work for your business. I'm here to relieve you of these struggles!

The first step is to fill out my client connection form, which only takes a few minutes. This helps me to understand your needs and be able to contact you. Click on any of the "Apply Now" buttons to access the form.

Mannequin Social is amazing! Super thorough with every step of the process. I know personally it's hard to write about my own business, my background and she did her research about my process and personal life and did an amazing job with my biography. Mannequin Social took on my bios, reels, social media posts, reached out to similar businesses and helped me get over my fear of starting my own website. I'm very thankful for Mannequin Social's services. I definitely recommend investing in yourself and your business by hiring her!

I run a construction company and Michelle has greatly increased my social media presence while helping snag a bunch of jobs. I thought that she might have a hard time trying to explain certain aspects of the building process with out constant input from me but she did the research and has more knowledge of construction then some guys that I have hired. I might have to hire her to not only manage my social media but to help me on the jobsites. Hire this ambitious lady to run your social media!
